

## SKINCARE & HOME USE DEVICES (IN COLLABORATION WITH HUD)

Friday, August 28, 2020 from 12.30 – 14.00h

The HOME USE DEVICE WORKING GROUP (HUD) was created as an informal association in 2011. The goals of HUD are to assist in the development of international standards and regulations relating to safe and effective home use, light- and energy-based aesthetic devices; to develop best practice recommendations, starting with safety, in advance of the publication of standards; and to encourage and disseminate communications about the efficacy and safety of home-use, light- and energy-based aesthetic devices.

*(Lectures are pre-recorded/moderation and Q&A are live)*
